WORK EXPERIENCE

Backend Developer, Pipex.Ai

Mumbai, Sep. 2025 – Present

- Engineered scalable backend services for a B2B industrial marketplace, streamlining procurement workflows, RFQs, and supplier discovery engines using Agile development practices.
- Architected and maintained modular backend repositories across SaaS platforms, administrator dashboards, and asynchronous worker services built on a microservices architecture.
- Optimized CI/CD pipelines and resolved critical security vulnerabilities, accelerating development build workflows and reducing build times by 70%.
- Boosted REST API performance by 4-6x by implementing advanced SQL query optimization, strategic Redis caching layers, and high-efficiency service design.

Full Stack Development Intern, Rthetapi

Remote, Nov. 2024 – Apr. 2025

- Developed modular, full-stack web applications using React, Node.js, and NestJS, leveraging microservices-based REST APIs and PostgreSQL for scalable backend architectures.
- Designed robust REST APIs and reusable UI components, collaborating with cross-functional Agile teams to enhance system maintainability and UX.

Frontend Development Intern, AltissAdvance Tech Pvt. Ltd.

Mumbai, Nov. 2023 – Feb. 2024

- Built high-performance UI components with React and TypeScript for a SaaS platform, improving page responsiveness and client-side load speeds.
- Translated design mockups into production-ready code while ensuring consistent UI/UX and component reusability.

PROJECTS

StudentHub – Student Social Platform

- Engineered a scalable student social platform using a microservices backend architecture and Docker containers, load-tested to support 1,000+ simulated concurrent users for real-time messaging and threaded discussions.
- Deployed serverless compute microservices via AWS Lambda, integrating Amazon S3 for media storage and WebSockets for low-latency event delivery and push notifications.
- Designed asynchronous background processing pipelines using Redis and BullMQ to handle high-throughput job queues, retries, and analytics workloads.

E-Commerce Platform

- Developed a responsive e-commerce app with secure authentication and payment integration.
- Designed and implemented modular REST APIs and UI components with full CRUD support for users, products, and orders.

SKILLS

Backend: Java, Spring Boot, Node.js, Express.js, NestJS, TypeScript, Spring MVC, Spring Data JPA, WebSockets, REST APIs

Databases & Messaging: PostgreSQL, MongoDB, Redis, RabbitMQ, BullMQ, SQL, Caching, Message Queues

Cloud & Infrastructure: AWS (Lambda, S3, EC2), Docker, Nginx, Microservices Architecture, CI/CD Pipelines

DevOps & Practices: Git, GitHub, Jenkins, GitLab, Linux, Agile

Frontend: React, Redux, Tailwind CSS, Ant Design, Bootstrap

EDUCATION

Mumbai University — Master of Science, Computer Science

Expected 2026

Mumbai, India

SIWS College, Wadala — Bachelor of Science, Computer Science

2023

Mumbai, India
