WORK EXPERIENCE

Pipex.Ai

Sep. 2025 – Present

Backend Developer

Mumbai, Maharashtra

Developed backend services for a B2B industrial marketplace focused on sourcing industrial materials, supporting RFQs, supplier discovery, and procurement workflows.

- Developed and maintained backend services across SaaS, admin, and scheduled worker services within a microservice-based architecture.
- Contributed to CI/CD pipeline development and identified and fixed critical security vulnerabilities.
- Optimized repository tooling and build workflows, reducing development build times by 70%.
- Enhanced API performance by 4–6x through optimal code practices, DB query optimizations, and caching strategies.

Rthetapi

Nov. 2024 – Apr. 2025

Full Stack Developer Intern

Remote

- Developed modular full-stack web applications using React, Node.js, and NestJS, implementing microservices-based APIs with PostgreSQL to support a scalable backend architecture.
- Built REST APIs and reusable components, improving maintainability and reducing code duplication.

AltissAdvance Tech Pvt. Ltd.

Nov. 2023 – Feb. 2024

Frontend Development Intern

Mumbai, Maharashtra

- Developed UI components for a React-based SaaS platform, improving page responsiveness and load times.
- Translated design mock-ups into production-ready code while ensuring consistent UI/UX and component reusability.

PROJECTS

StudentHub – Student Social Platform

- Engineered a scalable student social platform enabling communities, content sharing, threaded discussions, and real-time messaging, built with a modular MERN architecture optimized for high concurrency and maintainability.
- Implemented microservices using AWS Lambda, integrating S3 for media storage and WebSockets/WebPush for real-time notifications, ensuring low-latency event delivery and scalable serverless compute.
- Designed asynchronous background processing pipelines using Redis and BullMQ to power notifications, recommendations, and analytics workloads, implementing caching, job queues, and distributed worker processing.

E-Commerce Platform

- Developed a responsive e-commerce app with secure authentication and payment integration.
- Designed and implemented modular APIs and UI components with full CRUD support for users, products, and orders.

SKILLS

Backend: Node.js, Express.js, NestJS, TypeScript, Java, Spring Boot, REST APIs, WebSockets, Webhooks, OAuth

Databases & Messaging: PostgreSQL, MongoDB, Redis, RabbitMQ, BullMQ, Message Queues

Cloud & Infrastructure: AWS (Lambda, S3, EC2), Docker, Microservices Architecture, Distributed Systems, CI/CD Pipelines

DevOps & Tools: Git, GitHub Actions, Jenkins, Linux

Frontend: React, Redux, TypeScript, Tailwind CSS, Ant Design, Bootstrap

EDUCATION

Mumbai University

2024 – Present

Master of Science in Computer Science

Mumbai, India

SIWS College, Wadala

2023

Bachelor of Science in Computer Science

Mumbai, India
