WORK EXPERIENCE

Backend Developer, *Pipex.Ai*

Sep 2025 – Present | Mumbai

- Built backend services for a B2B industrial marketplace, driving procurement workflows, RFQs, and supplier discovery end-to-end
- Architected and owned modular backend repositories across SaaS platforms, administrator dashboards, and asynchronous worker services within a microservices architecture
- Optimized CI/CD pipelines and resolved critical security vulnerabilities, accelerating development build workflows and reducing build times by 70%.
- Boosted REST API performance by 4-6x by implementing advanced SQL query optimization, strategic Redis caching layers, and high-efficiency service design.
- Built and owned a scalable background worker system for automated, time-based email campaigns, decoupling notification delivery from the core request flow to reliably handle high-volume scheduled sends

Full Stack Developer Intern, *Rthetapi*

Nov 2024 – Apr 2025 | Remote

- Built full-stack features using React, Node.js, and NestJS backed by PostgreSQL across a microservices-based architecture
- Designed robust REST APIs and reusable UI components, collaborating with cross-functional Agile teams to enhance system maintainability and UX.

Frontend Development Intern, *AltissAdvance Tech Pvt. Ltd.*

Nov 2023 – Feb 2024 | Mumbai

- Built high-performance UI components with React and TypeScript for a SaaS platform, improving page responsiveness and client-side load speed
- Owned translation of design mockups into production-ready code, ensuring consistent UI/UX and component reusability

PROJECTS

StudentHub — Student Social Platform

- Engineered a scalable social platform using a microservices architecture and Docker containers, load-tested to support 10,000+ simulated concurrent users for real-time messaging and threaded discussions
- Deployed serverless functions via AWS Lambda with S3 for media storage and WebSockets for real-time notifications
- Built asynchronous processing pipelines with Redis and BullMQ to handle high-throughput job queues, retries, and analytics workloads

E-Commerce Platform

- Developed a responsive e-commerce app with secure authentication and integrated payments, supporting full CRUD across users, products, and orders
- Designed modular REST APIs and reusable UI components powering the storefront and admin views

EDUCATION

Mumbai University — Master of Science in Computer Science

Expected 2026 | Mumbai, India

SIWS College, Wadala — Bachelor of Science in Computer Science

2023 | Mumbai, India

LANGUAGES & TECHNOLOGIES

Backend: NestJS, Java, Spring Boot, Node.js, Express.js, TypeScript, Spring MVC, Spring Data JPA, WebSockets, REST APIs

Databases & Messaging: PostgreSQL, MongoDB, Redis, RabbitMQ, BullMQ, SQL, Caching, Message Queues

Cloud & Infrastructure: AWS (Lambda, S3, EC2), Docker, Nginx, Microservices Architecture, CI/CD Pipelines

Frontend: React, Redux, Tailwind CSS, Ant Design, Bootstrap

DevOps & Practices: Git, GitHub, Jenkins, GitLab, Linux, Agile
