WORK EXPERIENCE

Pipex.Ai | Backend Developer Sep. 2025 – Present | Mumbai

- Engineered scalable backend services for a B2B industrial marketplace, streamlining procurement workflows, RFQs, and supplier discovery engines.
- Architected and maintained modular backend repositories across SaaS platforms, administrator dashboards, and asynchronous worker services.
- Optimized CI/CD pipelines and resolved critical security vulnerabilities, accelerating development build workflows and reducing build times by 70%.
- Boosted API performance by 4-6x by implementing advanced SQL query optimization, strategic Redis caching layers, and high-efficiency service design.

Rthetapi | Full Stack Development Intern Nov. 2024 – Apr. 2025 | Remote

- Developed modular, full-stack web applications using React, Node.js, and NestJS, leveraging microservices-based APIs and PostgreSQL for highly scalable backend architectures.
- Designed robust REST APIs and reusable UI components, collaborating closely with cross-functional agile teams to enhance system maintainability and UX.

AltissAdvance Tech Pvt. Ltd. | Frontend Development Intern Nov. 2023 – Feb. 2024 | Mumbai

- Built high-performance UI components for a React-based SaaS platform, significantly enhancing page responsiveness and client-side load speeds.
- Translated design mockups into production-ready code while ensuring consistent UI/UX and component reusability.

PROJECTS

StudentHub – Student Social Platform

- Engineered a scalable student social platform utilizing a microservices backend architecture and distributed processing to support real-time messaging and threaded discussions.
- Deployed serverless compute microservices via AWS Lambda, integrating Amazon S3 for media storage and WebSockets for low-latency event delivery and push notifications.
- Designed asynchronous background processing pipelines using Redis and BullMQ to handle high-throughput job queues, retries, and analytics workloads.

E-Commerce Platform

- Developed a responsive e-commerce app with secure authentication and payment integration.
- Designed and implemented modular APIs and UI components with full CRUD support for users, products, and orders.

SKILLS

Backend: Java, Spring Boot, Node.js, Express.js, NestJS, TypeScript, Spring MVC, Spring Data JPA, WebSockets, REST APIs
Databases & Messaging: PostgreSQL, MongoDB, Redis, RabbitMQ, BullMQ, Caching, Message Queues
Cloud & Infrastructure: AWS (Lambda, S3, EC2), Docker, Microservices Architecture, CI/CD Pipelines
DevOps & Tools: Git, GitHub, Jenkins, Gitlab, Linux
Frontend: React, Redux, Tailwind CSS, Ant Design, Bootstrap

EDUCATION

Mumbai University <i>Master of Science, Computer Science</i>	2024 – Present <i>Mumbai, India</i>
SIWS College, Wadala <i>Bachelor of Science, Computer Science</i>	2023 <i>Mumbai, India</i>
